

Dear Applicant:

Thank you for your recent inquiry about the Master of Science degree in General Biology offered by The University of Arizona. Attached you will find information about our program and the necessary application forms. All requirements to both the Graduate College and the General Biology Program must be completed before your application will be considered.

Mail the departmental application materials to:

Ellie Warder
General Biology Program
Department of Chemistry & Biochemistry
The University of Arizona
Tucson, AZ 85721-0088

While we do not require GRE scores, please note that you must submit one official transcript from each College/University you have attended or are currently attending in the original, sealed envelope. A photocopy is unacceptable. Many colleges charge a fee to send transcripts. We recommend that you call each institution or visit their website to learn about their transcript policies and procedures. Credits which appear as transfer credits on any other transcript are not sufficient; you must provide an official transcript from the school where the credits were earned. Contact the Office of Student Records, Administration Building 3rd floor, 520/621-5625 if you have questions.

You may submit the Graduate College application materials and \$65 fee online, or you may mail them to the address on the application. **ALL** application materials must be received by **March 1**.

If you have general questions about the program, please call me at 520/621-5903. If you have questions about specific forms, call the number or office indicated on the form.

Sincerely,

Ellie Warder
Program Coordinator
